

# Design your Safety Procedures in Layers

Ok Alone has a number of features that work together to keep your employees safe.

**Check In Function** - A countdown timer set to ask the worker if they are Ok when it expires

**Highest GPS Setting** – The app uses accurate GPS to monitor their location in case of emergency

**High Risk Check-In** – A reduced Check In timer for when a worker enters an area of high risk

**Man Down Check In** – Alerts are triggered by a workers lack of movement

**Messages back to the Office** – Notify monitors of any shift related updates
